PROFESSIONAL SUMMARY

Motivated **Frontend Developer** with hands-on experience in building responsive, user-friendly web applications using modern JavaScript frameworks. Strong proficiency in **HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, and Tailwind CSS**. Experienced in collaborating with backend teams and customizing ERP systems using **Python (Odoo)**. Fast learner with strong problem-solving skills and a passion for clean UI, performance optimization, and scalable frontend architecture.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS
 - **Tools:** Git, GitHub, Figma
 - **Backend / Others:** REST APIs, Python, Odoo
-

WORK EXPERIENCE

Full Stack Developer

PT. Asia e-Services — Bogor, West Java

Jan 2023 – Present

- Developed and maintained responsive web interfaces using **React.js, Next.js, Tailwind CSS**
- Built reusable UI components to improve development efficiency
- Integrated frontend with RESTful APIs
- Customized ERP systems (**Odoo**) using **Python**

Software Developer Intern (Remote / UK-based) London Success Academy — London, UK

Android Community CCIT-FTUI — Depok, West Java

March 2026

- Participated in a competitive Career Accelerator Internship Program focused on real-world software and web development projects.
- Gained hands-on experience with modern development practices, mentorship from industry professionals, and collaborative project work.
- Enhanced skills in frontend technologies, problem-solving, and professional software development.

Android Development Mentor

Android Community CCIT-FTUI — Depok, West Java

Sep 2020 – Aug 2021

- Mentored students in Android development fundamentals
 - Assisted in UI implementation and debugging
 - Guided students through project-based learning
-

PROJECTS

Web Application Projects

GitHub: <https://github.com/imbsaga>

- **Prodigi UMKM – Enterprise AI Mentoring & Business Platform (Flagship)**
 - **Architected and developed modern, high-speed responsive web applications** using **React 19**, **TypeScript**, **Vite**, and **Tailwind CSS 4** within an npm workspaces monorepo structure.
 - **Engineered an enterprise micro-frontend ecosystem** sharing core UI design systems, authentication contexts, and typed API clients across 4 dedicated web portals (UMKM Dashboard, Marketing Landing, Partner Affiliate, and Office Admin).
 - **Implemented advanced frontend features** including stateful AI Mentor workflows with persistent business context memory, automated audit questionnaires, interactive Kanban-style todo lists, and cross-platform responsive layouts.
- **Restaurant Discovery & Food Ordering Web Application**
 - Developed a modern, full-featured restaurant discovery and online food ordering platform using **React 19**, **Vite**, **TypeScript**, and **Tailwind CSS 4**
 - Implemented advanced features including smart search with filters, AI-powered recommendations, interactive shopping cart (with **Redux Toolkit + Redux Persist**), multi-restaurant orders, and real-time checkout flow
 - Built responsive UI with **Shadcn UI**, **Radix UI**, dark mode support, and smooth animations
 - Integrated secure user authentication, profiles, order history, and dynamic data fetching using **TanStack Query** and **Axios**
 - Focused on performance optimization, reusable components, and excellent cross-device user experience
